NEW SPECTACULAR ENGLISH CHRYSANTHEMUMS

They have proven extremely hardy, unbelievably beautiful in colors and blends and above all have given the home gardener what he has wanted for years, a truly large flower, comparable to those grown in greenhouses, that he can grow out of doors with ease in his garden. It must be remembered though that all English Mums are not 6 to 7 inches across and that to produce large flowers most kinds must be disbudded.

All varieties listed below are early flowering and fully double.

THESE MUMS MUST BE DISBUDDED TO PRODUCE GIANT FLOWERS 6 to 8 in. ACROSS.

ALFRETON'S IVORY — Early giant pure white. Best when disbudded.

PAINTED DAISIES — PYRETHRUM

One of the backbone plants of the perennial border. Makes a magnificent garden show and a wonderful cut flower.
ROBINSON'S HYBRIDS — Large flowers in all shades of rose to deep red.

47c Each 3 for \$1.15 \$4.00 doz.

WEATHER PROOF PERENNIALS — Rocknoll is located 22 miles north of the Ohio River in Southwestern Ohio. We have severe cold winters often without a protecting snow blanket and hot dry summers. Temperatures range from 20 degrees below zero F. in winter to 100 degrees in the shade in summer. We have periods of heavy rainfall and periods of drought just the same as you do. Our soil while very fertile and productive is only good farm land used for growing corn before we took it over. We do not have deep black celery soil or sandy old lake bottoms to force fast growth on plants that often fail to hold up when moved to your garden soils.

ROCKNOLL'S PLANTS WILL GROW FOR YOU

ROCKNOLL GIANT LONG SPURRED COLUMBINE

This is a superb strain of giant flowered varieties in every imaginable shade and color blend to be found in columbine. The stems are all long and graceful and the flowers abundantly produced on the stems. We find the best columbines to transplant are one year old field grown plants, as these still have the vigor of their first full flowering period just ahead of them.

COLUMBINE TO COLOR NAMED VARIETIES

INTERESTING BULBS FOR SPRING PLANTING

ACIDANTHERA MURILAE

A NEW BULB.
FLOWERS LIKE AN ORCHID.
FRAGRANT AS A GARDENIA.
GROWS LIKE A GLAD.

Beautiful new introduction from Western Abyssinia; tall rigid stems, 3 feet and more with many very sweetly scented large pure white flowers about four inches across with crimson maroon blotch. Excellent for cutting. Mid August-September. One of the best introductions of recent years, is easily grown in the open and requires the same treatment as the large flowered gladioli. We advise not to plant too early in spring, the soil must not be too cold. The flowers are never damaged by wind or rain.

The Kind of A Bulb We Send Out

Our Glad fields are well rogued and sprayed regularly. In storage our bulbs are dipped at least three times.

We firmly believe the best size Glad bulb to plant for general home garden work is a nice large corm 1 1/4 in. or more in diameter that will produce top sized flowers.

ROCKNOLL'S SUPERB DAHLIAS

— MIXED DAHLIAS —

Last summer we grew several acres of newer show Dahlias at our new farm at Sandy Springs, Buena Vista, Ohio. Many varieties grew beautifully but we do not have enough stock to list them individually this year so we are offering the surplus above our 1952 planting requirements in a mixture. This is made up of over 40 varieties — all good new show types.
